Vendor “QR” Barcode Information

The Sonoma Wedding & Event Show is offering a new and exciting way to increase our vendor’s name recognition and advertising. On all of our web sites, the vendor listings include the “QR” bar code for use with most smartphones. When a bride holds their smart phone up to the barcode, the phone reads the barcode and stores the vendors information. With one click, a bride can use this stored reference to connect to your web page or contact you via email or phone. The barcode scanner app is available on most smart phones and easily accessible from the app store if not. Today’s tech-savy brides love the convenience and accuracy of the barcode option and we think you will too!

To participate in the “Quick Click” stand, please supply the requested information below.
